DEPARTMENT OF TREASURY

GRETCHEN WHITMER
GOVERNOR

RACHAEL EUBANKS
STATE TREASURER

DATE: December 1, 2021
TO: House and Senate K-12 Appropriations Subcommittees

SUBJECT: Quarterly Report - Deficit School Districts Pursuant to MCL 380.1220(2)

EXECUTIVE SUMMARY

Pursuant to MCL 380.1220 within the Revised School Code, the State Treasurer shall submit quarterly interim reports to the legislature concerning K-12 school districts, Intermediate School Districts (ISDs), and Public School Academies (PSAs) that are subject to periodic financial status reports or are under an Enhanced Deficit Elimination Plan (EDEP). This is the Michigan Department of Treasury's ("the Department") second quarterly report for FY2021-22 to the Michigan Legislature where an analysis of FY 2020-21 audited financial data has been completed for all school districts under active Treasury oversight.

On July 7, 2015, then-Gov. Rick Snyder signed into law Public Acts 109-114, giving the Department additional financial authority and responsibilities over K-12 school districts, ISDs, and PSAs facing fiscal distress. Pursuant to MCL 380.1219(3), the State Treasurer is required to determine whether potential fiscal stress exists within a school district, ISD, or PSA. Per statute, conditions of fiscal stress may include but are not limited to; (1) An operating deficit within a school district, ISD, or PSA during the current school fiscal year or the following two school fiscal years (2) A district's inability to meet its financial obligations while also satisfying the districts, ISDs, or PSAs obligations to provide public education services in a manner that complies with state law.

The School Review and Fiscal Accountability Division (SRFA) within the Department is responsible for analyzing the financial health of Michigan's 893 active school districts while working closely with the Michigan Department of Education (MDE) and the Center for Educational Performance and Information (CEPI). The Department has developed a process to identify fiscal stress by closely monitoring data collected from the districts audited financial statements, adopted budget, State Aid Status Reports, Financial Information Database (FID), and Michigan Student Data System (MSDS). The following is a summary of school districts under Department oversight as of December 1, 2021.

EARLY WARNING DISTRICTS

Table 1 below is a complete list of districts showing signs of potential fiscal stress pursuant to Early Warning legislation, including the year they were identified. Since the September 2021 Quarterly Report, there have been no changes to the list of districts under Department oversight. In January, the Department will determine if fiscal stress remains in each of these districts and academies based upon audited financial statements and fiscal trends. Table 1 totals eighteen (18) districts: ten (10) PSAs and eight (8) LEAs.
